MAINTENANCE- PUBLIC LAND SURVEY MONUMENT RECORD

TIE SHEET UPDATE-21505172000 (LA CROSSE COUNTY INDEX 70A)

John Krage and I performed maintenance work for this corner on April 13, 2016 and found a remnant of the P.K nail set by W. Jung, using the two northerly ties I reset his position with a MAG nail and measured the ties as shown.

Date: 4/10/97

Describe any record evidence, monument evidence, testimonial evidence or any other material evidence you considered and whether the monument was found or restored through acceptance of an obliterated evidence location.

the I set the corner on line with fence to the West and in the road centerline. This occupied corner location fits the old highway map and the section measurements. The corner is only off line 9" between the section corners. I accepted this location as the best available evidence of the original government corner position.

The railroad spike was knocked out during repaving of "162" last year. We set a P.K. nail at the corner location.

Describe or show any material discrepancy between the location of the restored corner and that of the corner previously restored or reestablished.

None known.
