Describe any record evidence, monument evidence, testimonial evidence or any other material evidence you considered and whether the monument was found or restored through acceptance of an obliterated evidence location.

I accepted the old occupied corner as the best available evidence of the original government corner position. The corner was monumented with a brass capped Lunde marker.

Describe or show any material discrepancy between the location of the restored corner and that of the corner previously restored or reestablished.

Berg set an iron pipe at this corner in 1980. We could not find the pipe. I believe that my corner location is North of Berg's old location by at least 4.9.
